Donors to this cause believe in demonstrating the love of God by helping communities acquire desperately needed clean water, and to experience “living water”—the gospel of Jesus Christ—which alone satisfies the deepest thirst.

Around the world, communities are trapped in debilitating poverty because they constantly suffer from water-related diseases and parasites, and/ or because they spend long stretches of their time carrying water over long distances.

In response to this need, a charity supported by these donors implements participatory, community-based water solutions in developing countries. Since they started, they’ve completed water projects for 7,000 communities in 26 countries.

Their training programs in shallow well drilling, pump repair, and hygiene education have equipped thousands of volunteers and professionals in the basics of integrated water solutions since 1997.

These generous donors are ideal for offers from clean water programs and third world, hunger and religious causes.
